Emial   triratsinghakul.sitala@gmail.com

Contact Number   080 821 4349

Current Address   699/65 Phakpirom Thepharak Village, Moo 4, Soi Sriboonruang, Thepharak Road, Thepharak Subdistrict, Mueang District, Samut Prakan Province 10270, Thailand

Current Academic Program

Currently pursuing a bachelor's degree in actuarial science at the Department of Actuarial Science, Faculty of Science and Technology, Thammasat University. The comprehensive curriculum features key courses including Calculus, Statistics for Actuarial Science, Probability Theory, Mathematical Statistics, Insurance Fundamentals, Risk Management, Quantitative Risk Analysis, Financial Risk Management, Financial Accounting for Actuarial Science, Insurance Law and Practices, and Financial Mathematics, among others.

Career Interests

I am interested in the insurance business field, including both life insurance and non-life insurance. I intend to pursue an internship to learn more about this industry, specifically with an interest in working in the Claims Department.

Internship Objectives

I want to learn about work systems, gain real work experience, understand job scope, identify what additional knowledge is needed before starting actual work, and determine which areas of expertise need to be enhanced.

Relevant Experience and Activities

During academic break, I had the opportunity to gain hands-on professional experience by working with family members in the insurance claims assessment field. This experience provided me with comprehensive knowledge of the claims evaluation process. This practical exposure helped me learn about systematic damage assessment procedures. Additionally, I participated in university financial education initiatives, including The Stock Master @University 2024 and KGI Algo Trading Bootcamp and Competition 2024. Both programs enhanced my investment skills and deepened my understanding of financial concepts.

Skills & Qualifications

Basic Computer Skills

- Python Code
- R Code
- Microsoft Word
- Microsoft Excel
- Microsoft Powerpoint

Graphic Design Skills

- Canva and Sketchup

Additional Qualifications

- Demonstrates strong eagerness to acquire new knowledge and adaptability to emerging trends.
- Exhibits exceptional learning agility and rapid skill acquisition capabilities.
