

The Navakij Insurance Public Company Limited
Report and financial statements
31 December 2015

Independent Auditor's Report

To the Shareholders of The Navakij Insurance Public Company Limited

I have audited the accompanying financial statements of The Navakij Insurance Public Company Limited, which comprise the statements of financial position, in which the equity method is applied, as at 31 December 2015, and the related statements of income, comprehensive income, changes in equity and cash flows, in which the equity method is applied, for the year then ended, and a summary of significant accounting policies and other explanatory information, and have also audited the separate financial statements of The Navakij Insurance Public Company Limited for the same period.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Thai Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Navakij Insurance Public Company Limited, in which the equity method is applied, as at 31 December 2015, and its financial performance and cash flows, in which the equity method is applied, for the year then ended, and the separate of The Navakij Insurance Public Company Limited, in accordance with Thai Financial Reporting Standards.

Emphasis of matter

I draw attention to Note 4 to the financial statements regarding the change in accounting policy due to the adoption of TAS19 (revised 2014) Employee Benefits. The Company has restated the statements of income and comprehensive income, in which the equity method is applied, and the separate statements of income and comprehensive income for the year ended 31 December 2014, presented herein as comparative information, to reflect the adjustments resulting from such change. My opinion is not qualified in respect of this matter.
