

Green Procurement Policy

The Navakij Insurance Public Company Limited realizes the importance of using resources and preserving the environment including promoting values and consumption behavior. The Company, taking into consideration the impact on the environment, therefore, establishes Green Procurement Policy as follows:

1. The Company provides goods and services by the quality, reasonable price, delivery in accordance with the agreement as well as considering the responsibility for the environment, society, and corporate governance.
2. The Company provides goods and services with transparency and accountability and complies with relevant regulations and laws.
3. The Company prepares fair guidelines for procurement and treats all suppliers and providers equally.
4. The Company promotes the selection of product and service suppliers that are certified for quality and environmental standards.
5. The Company promotes green procurement, supports the use of products from renewable resources and does not pollute the environment.

The Company reviews the policy regularly at least once a year or when there is a significant change.
